

Quality Policy

Bivort S.A. is dedicated to the Design, Development, Manufacture and Commercialization of technical products in polymers with or without metallic parts for the oil and industrial sector.

The permanent goals of Bivort S.A. are to consolidate and increase the quality, reliability and profitability of the Company. Staff permanent training is conducted to fully satisfy the needs and requirements of the clients and interested parties. Meeting the quality standards and improving the assistance and service are the final target.

As an essential part of this policy, the Management is committed to satisfy the needs of the clients, to monitor the degree of satisfaction or dissatisfaction and to improve the recorded result levels by complying with the Health & Safety and Environmental legal applicable regulations.

The staff has been informed about this policy by means of notice boards and meetings directed by the managers.

Luis Bivort
Bivort's President
